Little and Pony Loop Discuss Plans; No Coleman Entry

A meeting of the officials of the Little League and Pony League teams of the Crow's Nest Pass towns met here over the week-end and discussed plans for the forthcoming baseball season.

It was announced at the meeting that teams were expected in both the Little and Pony Leagues from Hillcrest, Blairmore, Michel and Fernie. Unfortunately there were no sponsors for a team from the town of Coleman.

During the meeting dates for the annual peanut drive were set for May 19th, 20th and 21st and will be held in all towns that have teams participating in the league. Funds raised from the drive are earmarked for the support and insurance of the teams in the league.

A tournament will be held at the Hillcrest Baseball Stadium on Sunday and Monday, May 23rd and 24th, but so far it is not yet known how many teams will take part in the two day affair. It is expected that teams from Fort Macleod west to Fernie will take part in the colorful tournament.

It was also announced at the meeting that an outdoor bingo would be held at the Hillcrest stadium on June 16th. Those planning on attending the bingo will be allowed to drive into the field in their cars and remain in their cars to play bingo. A canvass of local merchants has been made for prizes and the committee report that the merchants are one hundred per cent behind the league judging from the generous donations that were made for the bingo night. Prizes ranging from electric kettles to loads of coal and wood have been donated. As an added attraction at the bingo night a jackpot prize of \$500.00 will be given to the lucky winner.

• The Ladies of the Hillcrest Moose Lodge will have a refreshment stand operating at both the baseball tournament and at the bingo night for the convenience of the public.

A further drive for funds has been arranged for by the executive of the Little League and Pony League. A dance will be held in the Lundbreck Community Hall on the evening of June 17th. The dance will run from 10:00 p.m. to 2:30 a.m. and lunch will be served in the hall.

During the meeting it was decided to have two umpires from each town in the League and these umpires will be controlled and paid by the league for their services.

Judging from the plans being made by the active executive it would appear that well organized baseball in this particular league will be enjoyed by baseball fans in the Pass towns this summer.

Coleman Man Dies Suddenly Working In Garden

Trofin "Tom" Belik, long time resident of Coleman, died suddenly at his home in Coleman Monday morning while working in his garden. Death is attributed to a heart attack.

Mr. Belik, 65, was born in Russia, April 15, 1890, and came to Canada, settling in Coleman in 1911. On his arrival in Coleman he became employed by Coleman Collieries as a miner and timberman and had remained with the company for the past 43 years until one year ago when he retired on his miner's pension. He was a member of the Catholic faith and a member of the Coleman local of the United Mine Workers of America.

He is survived by his wife Anne at Coleman and three sons, Ernest at Fernie, B.C.; Stanley at Michel, B.C., and Lawrence attending university in Toronto.

Funeral services were conducted from Holy Ghost Catholic Church on Thursday, May 12th, interment was in the Holy Ghost cemetery. Rev. M. McGreevy officiated.

Card of Thanks

We wish to thank all those who sent Flowers, Mass Cards, loaned cars, or helped in any way during our recent sad bereavement.

Annie Belik and Sons.

What Your Town Council Is Doing

The regular meeting of the town council was held Friday evening with the mayor and all council members present.

A complaint was received from E. Mischerin as to the condition of the baseball diamond in the rodeo grounds. It seems that some one is running a car around the diamond and ruining the playing surface. This complaint was handed over to the police chief for investigation.

The police report was read and accepted by the council.

The budget for the year was read and accepted.

The council received a Certificate of Merit to be awarded to the local Volunteer Fire Brigade along with a letter of congratulation from the National Fire Protective Association. The local brigade and its chief are to be commended for this as there are no many brigades that have won this recognition.

The date of the council meetings has again been changed from the second and fourth Friday as planned to the Tuesday evenings it was held on formerly.

C.N.P. Fish and Game Assn. Meet

FRANK. — Approximately 20 representatives of the Crow's Nest Pass Fish and Game Association met in the Frank hall on Sunday, May 8. Associations represented were Hillcrest Fish and Game, Bellevue Fish and Game, Coleman Fish and Game, Turtle Mountain Fish and Game and the Crow's Nest Rifle and Gun Club.

Frank Edl, president of the Turtle Mountain Fish and Game presided at the meeting.

The following resolution was drawn up by the association and sent to the Chief Game Commissioner in Edmonton: "Be it resolved that since our streams, namely: Old Man, Castle, Crow's Nest, Livingstone and their tributaries have been depleted of fish stock by local and surrounding fishermen, we demand that a large re-stocking program be put into progress as soon as possible."

In a letter to the Turtle Mountain Fish and Game, Mr. George Spargo, secretary-manager of the Alberta Fish and Game Association, pointed out that we have a big fight on to regain our hunting privileges and I notice Mr. Kovach is helping us greatly. We need the sportsmen of the Crow's Nest to back us up more and more, and as you know it was due to our convention that part of the Caribou was opened for hunting. There is already another movement on to prevent an open season next year by certain ranchers who want to close the area for everyone but themselves. It will be up to all the sportsmen in the Pass to get together to prevent this, so we need you very badly right now.

Mr. Spargo also stated that he would be in the Crow's Nest Pass on the 24th of May accompanied by Mr. E. Payne, Game Commissioner for Saskatchewan. Mr. Them Kjar, Game Commissioner for the Yukon; and Sgt. Major Bruce Stewart of the Yukon Fish and Game Association.

A meeting at the Turtle Mountain is planned for the evening of the 24th at which time Mr. Spargo will show some films. Tickets will go on sale in the near future and the support of all sportsmen is urgently solicited.

C.N.P. Hospital Auxiliary Sponsors Nursing Scholarship

The Ladies' Auxiliary to the Crow's Nest Pass Hospital has announced that the Auxiliary will sponsor a \$50 scholarship to the girl student with the second highest marks, who will enter nursing school.

This scholarship is open to all Crow's Nest Pass school girls who plan on taking nursing.

The local AARN sponsors a \$100 scholarship to the girl who receives the highest marks. This is an annual scholarship for those who plan entering nursing school.

McGillivray Miner's Death Ruled Due To Natural Causes

A coroner's jury under the direction of Dr. E. J. Liesmer, local coroner, investigating into the death of Henry (Buck) Eysacker, employed in the McGillivray mine of the Coleman Collieries, who was found dead on Monday, May 9th in a mine chute, returned the following verdict:

"We, the jury, find that Henry Eysacker, while performing his duty as a coal bunker in room 16 of No. 4 level, came to his death by suffering a coronary occlusion at approximately 11:30 a.m. on May 9, 1955." The jury comprised of Foreman, Horace Allen; P. Phillips, E. Derbyshire, John Collison, A. Fauville and Jim Wilkie, all of Coleman.

First witness to be heard was A. Graham, mine surveyor, who furnished a plan of the death area, and described the area to the jury.

Dr. E. Aielo of Coleman, presented his report of the autopsy on the deceased. He stated that death was due to coronary occlusion, which was commonly known as heart failure. He stated further that the abrasion over the eye, and the abrasion on the right lower chest were superficial injuries, and had in no way contributed to the deceased's death. It was his belief that these slight injuries may have occurred after his death.

Mr. William Goodwin, mine manager, gave evidence next, in which he stated that he had talked with Eysacker a very short time before his death, and that "Buck" as he was commonly known, was performing his work and that he was feeling fine. That he had asked him how the coal was running and that Buck had stated that it was O. K. Mr. Goodwin then left to inspect some other workings a short distance away, and shortly afterwards heard from another employee that a man had been found dead.

Henry 'Buck' Isacker Given Last Rites

Henry "Buck" Isacker, a long time resident of Coleman, who passed away while working in the McGillivray Mine, on Monday, May 9, was laid to rest on Thursday. Buck as he was known to practically all of his many friends, came to Canada in 1909 at the age of eight years. He was born in Belgium, the son of Mr. and Mrs. Louis Isacker who also immigrated to Canada and settled in Coleman. He received all of his education here in Coleman, and started working in the Coleman mines in 1920. An ardent fisherman and hunter, a very staunch supporter of all community efforts, a honored member of the Coleman Canadian Legion, The Elks Lodge, and the Coleman local of the U.M.W.A. he will be deeply missed by the family home, from whence the funeral cortege proceeded to St. Paul's United Church for services under the Rev. Chubb. Hymns sung were "Rock Of Ages" and "Abide With Me."

Graveside rites were performed by the Rev. Chubb, by J. Kulig, President of the Canadian Legion, by G. Omelchuk for the B.P.O.E. Palbearers were: W. Makin, R. Steurburt, M. Hlibchuk for Canadian Legion W. Jenkins, A. Cornez, P. DeGroot for B.P.O.E. Henry was predeceased by both his parents at Coleman, surviving are one sister Mrs. Josephine Mills, of Blairmore, three brothers, Hector of Coleman, Alfred of Trail, B.C. and Francis in Belgium.

Card of Thanks

We wish to thank all those who sent flowers, loaned cars, sent sympathy cards, or assisted in any way during our recent sad bereavement.

Bud Clark
Mr. and Mrs. D. Mills
and the Eysacker Family

He had immediately returned to where Eysacker was found.

He had the body removed to the outside where Eysacker was examined by Dr. Liesmer, and pronounced dead. The area in which this man was found was inspected for any signs of rock, coal or timber falls, and that none were found.

Mr. Fred Fisher, the conveyor operator in the area where Eysacker was working, was called to give evidence and he stated that he was the one who had found Eysacker. Mr. Fisher stated: "I had just put the check board in the chute and had turned slightly away from the chute when I heard a noise. It did not sound like coal running, but like a timber coming down the chute. He investigated and found Eysacker lying in the chute. I lifted "Buck" out of the chute and gently as possible lowered him to the floor. He was on his back and came down feet first, his miner's light and hard hat were still on. I immediately went for help. He stated that he had noticed a cut over "Buck's" eye.

Final witness was John Curry, Safety Supervisor for Coleman Collieries, who stated that this chute was extremely narrow in comparison to the regular chutes in McGillivray mine. This in itself was not extraordinary in mines. All safety measures had been in effect, and no evidence pointed to any fall of rock, coal or timber. Mr. Curry had inspected all of the area in this section and found it in good order.

With all of the foregoing evidence submitted the jury retired to evaluate and bring back a verdict which has been given in a previous paragraph.

Mines Inspector P. Melson of Blairmore, was in attendance, also Mr. N. Ash, secretary of the Local Union of the U.M.W.A.

C.W.L. Postpones Rummage Sale

At the monthly meeting of the Catholic Women's League of Holy Ghost Parish, held at the home of Mrs. J. Kulig, the main topic of discussion was the Rummage Sale.

Due to circumstances it was found that the sale would have to be postponed from Friday, May 20 as planned and will be held instead on Saturday, May 21.

Cup cakes, muffins and coffee will be served during the sale.

Following the meeting a social evening was held with whist and bridge being played. Prizes were won by Mrs. M. Proskovky and Mrs. B. Osiovy. Rev. Father McGreevy won the bridge prize.

The next meeting will be held at the home of Mrs. B. Osiovy on Tuesday, June 7.

Tea and Sole Proves Success

The Junior CYO of Coleman, under the direction of the Sisters of St. Martha, sponsored a successful tea and sale of fancy work in the Italian Hall on Saturday, May 7th. The tables were favorably decorated with spring flowers and the young girls who catered as waitresses are to be commended for a job well done.

At the close of the tea a draw was made with the following persons winning prizes: five-piece crocheted set, won by Mrs. Cornett, Jr.; pillow slips, won by Mrs. M. Spento of the St. Michael's Hospital staff, Lethbridge; Mother's Day fruit cake, donated by Mrs. Fontana, won by Mrs. Tom Siska; cushion, donated by the CYO, won by the Sisters of St. Martha of Blairmore, and the cake, donated by the Sisters for a contest, was won by Miss Sylvia Ferregotti.

Mr. and Mrs. J. Hardy have returned home after a short business trip to Creston, B.C.

Death Removes Bellevue Woman

BELLEVUE — (C.N.P. Bureau) — Mrs. William Julia Cox, well-known Bellevue resident, died in the Crow's Nest Pass Municipal hospital May 10, following a brief illness.

Mrs. Cox, 63, was born in West Hartlepool, County of Durham, England, and came to Bellevue 27 years ago where she had resided since. She was a member of the Bellevue United church, ladies' auxiliary to the Bellevue branch of the Canadian Legion and a former Noble Grand of the Bellevue Ray of Hope Rebekah Lodge.

She is survived by her husband William, at Bellevue, a daughter, Mrs. Martha J. Brooks of Bellevue, and two sons, William of Bellevue and Harold of Vancouver, and nine grandchildren and by a sister, in England. She had returned to England in 1948 to spend a visit with her father and sister.

Funeral services will be conducted from the United church in Bellevue at 2 p.m. on Friday, May 13, and interment will follow in the Hillcrest Union cemetery. The Rev. Blair MacPherson of Bellevue will officiate at the services.

Miss Ann Mary Bodish Sponsored Queen In Lethbridge Festival

Ann Mary Bodish
— Photo by Evan Cushal

The Blairmore R.C.E.M. Band under the direction of Fred Bedington of Coleman have sponsored Ann Mary Bodish of Coleman as their entrant in the Queen contest to be held in Lethbridge on May 28 in connection with the Southern Alberta Band Festival. Members of this band are made up from all of the Pass towns including Fernie and Michel, B.C. Tickets are now on sale by bandsmen and friends of the contestant. Let's get behind this fine band and their candidate.

Coal Proven Cheaper In Heating Eastern Schools

According to an excerpt of an article printed in a recent Trade magazine we find the following remarks as to the heating costs in regards to coal and oil.

These remarks may be heartening to the miners here in Coleman, especially with the decline in the present working conditions. If enough of the public will realize that coal is the best, why we still have a chance.

"Following a suggestion by Trusger Graham Metcalfe, property committee of the Lakeshore, Ontario Board of Education, is to discuss the advisability of converting all Lakeshore schools from oil to coal heating."

"Mr. Metcalfe said that when James S. Bell school was changed to oil heat a year ago he had been in favor of it, but he had since been forced ruefully to regret the error."

"I was led up the garden path by so-called experts," said Mr. Metcalfe, adding that costs of heating the school with coal had been \$22.03 per room and with oil it had come to \$56.18.

Per room heating costs in Mimico high school, heated with coal, were \$71.49 last year, said Mr. Metcalfe, while New Toronto secondary schools, heated with oil, had cost \$156.93."

Delegation To Edmonton To Interview Cabinet On Layoff

Coleman's delegation comprised of Mayor Frank Abousaffy, Norman Ash, secretary of the Coleman Local Union U.M.W.A., and Mr. H. Boulton, from the Board of Trade, proceeded to Edmonton along with Mr. F. J. Lote and Mr. T. Costigan of Blairmore, to present a brief on the mine layoffs at Coleman Collieries recently.

They left Coleman on Sunday so as to be in Edmonton for the meeting called for Monday, May 16 by Premier E. C. Manning, to discuss ways and means of assisting the unemployed in the Pass area.

The delegation will present plans to assist the unemployed men of this area, and they hope to bring back good news for all of us here in the Pass.

The delegation is expected back Tuesday and if in time we will attempt to give you a report of this meeting.

School Board Meeting Reports

The regular meeting of the Coleman School Board was held Monday, May 9, in the Board Room of the School with M. Cornett as chairman.

The bills were authorized for Bayon, who has served on the Board for two terms, was accepted. Board for two terms was accepted with regret. The secretary was instructed to notify the town secretary of this fact so that a by-election could be held to replace the Board member. An institute for the Grade 1 to 12 teachers was held at Pincher Creek and Mr. McKay reported all teachers attended.

A letter from two English teachers was read requesting news of vacancies on the staff. As no vacancies are anticipated the letter was tabled for future reference.

A request was received from the Coleman Volunteer Fire Brigade requesting the use of the school grounds for the annual Hose Coupling demonstration. This request will be granted providing no oil is used and the grounds are left in good condition.

The bus report was read and accepted by the Board.

Principal H. Allen reported that the enrollment was 593 with an attendance of 965%.

The Board will again undertake the sale of School text books to the students.

Notices of registration of new pupils for the fall term will be posted.

Mr. Allen reported that the Salk Vaccine for the prevention of Polio will be given to pupils of Grades One and Two sometime in June. School children will also be X-rayed while the T.B. Mobile Clinic is in Coleman.

The Annual Student Prom will be held on Friday, May 20th and Mr. Allen extended invitations to all Board members to attend.

Local Union Secty. Explains Why No Holiday For Funeral

Mr. Norman Ash, secretary of the Coleman Local of the U.M.W.A. stated that the day of the funeral of the late Henry Isacker was not to be considered as a holiday under the terms of the agreement as signed by the U.M.W.A. and the Coleman Collieries.

Only in the case of accidental death does the clause apply.

Mr. Ash further remarked that in the past that if a man died in the mine that the day of his funeral has been observed as a no-work day, and that they regretted very much that this practice had not been observed this time. He hoped that in the future that if a person died while in the mine from natural causes that the day of his funeral would be observed as a no-work day.

Productivity per worker has doubled in the last 50 years, as the result of better technological equipment. The average worker now produces as much in 23 minutes as he could have produced in a whole hour in 1900.

World Happenings In Pictures

RACING SEASON—The racing season soon will begin in Canada and four-year-old Beth Forbes is getting some advance information from Epigram, which won the Queen's Plate at Toronto in 1952. Epigram is in training for the new season, which opens at Toronto's Dufferin Park April 30, earliest opening of racing in Canadian turf history.

"HE HAD THE REACH ON ME"—Bill Foster puts up an indignant beef during the 37th annual Navy Junior Boxing Finals at the Naval Academy, Annapolis, Md. Timmy Villarreal, no believer in bells nautical or otherwise, keeps poking the long ones although the bout is over with.

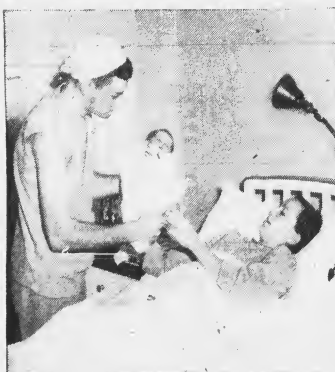

THE MAN—Dr. Jonas Salk, back in his Pittsburgh hospital laboratory after announcement of the success of his anti-polio vaccine, examines a live virus fluid.

THE ADMIRAL COULDN'T DO BETTER—

WHAT'S HER DISPLACEMENT?—

CHOW WITH THE SKIPPER—

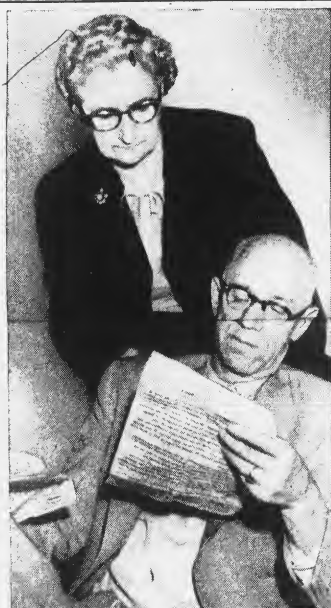

Cork comes from the oak tree—a species known as the cork oak, from which the bark is stripped to make the cork. The average North American uses 800 pounds of wood a year while the average African uses about 125 pounds.

FASHION: An unusual side draping gives a train effect to this dress in vivid green and white striped Sudan cotton. It's an original model created by Irish Designer Irene Gilbert.

CLEAN-SWEEP VICTORY—Alderman-elect Charles H. Weber of Chicago, Ill., will sweep into office on this motorized street-sweeper. It was the promise that his 45th ward would see one of the gadgets in service that helped him win the nomination. Appearance in the Bavarian costume fulfills another promise—to let his constituents see him in the outfit, a gift from the late mayor of West Berlin, Ernst Reuter.

SLIGHT MISTAKE—Leonard Hankins, 56, reads news dispatches in St. Paul telling of the \$300 monthly the state will pay him because he served 19 years in Minnesota prisons for 1932 bank robbery he did not commit. With him is his sister who was awarded \$10,000 covering cost of her efforts to free him. Hankins was pardoned in 1951.

SIBERIAN ESCAPEE—Morris Polin, left, studies a passport similar to one prepared by Jacob Waks of Australia more than 40 years ago, which helped him escape from Siberia.

OUR COMPLETE SHORT STORY—

A LETTER FOR MR. SMITH

—By ADDISON H. HALLOCK

BILL lay in bed watching the miracle of a new day being born. Tomorrow, he thought, will be Anne's birthday, and he would have nothing to give her. He turned away from the window and looked at his wife. How young she looked! And she would be 40 tomorrow. Unbelievable!

Anne opened her eyes and smiled. Bill kissed her. "Sweet," she said.

"Look like we're going to have a nice day," Bill said.

"Mmm," Anne murmured. "I'm glad. Wish you didn't have to go to the office."

"Me too," said Bill. "I'd just like to lie here all day and look at you."

"Sweet," Anne said again. She turned to face Bill. "Oh, dear," she sighed, "I just remembered. Tomorrow's..."

"Yes, I know... your birthday. And I haven't one darn thing to..."

"Look, Bill," Anne interrupted hastily, "let's forget this one."

"Forget your birthday? Have I ever..."

"No, honey... but when a girl is... well, forthright birthdays should be skipped."

"You look like 16," Anne giggled. "Oh, Bill, that's just because you love me. I look like an old hag, and you know it."

"The alarm broke in on them and Bill got up to shut it off."

Five years ago Bill had gone berserk. Wanting his wife to have the nice things other girls had, he had gone on a spending spree. He had surprised Anne with a new radio, a fur coat. He had given her all sorts of extra money to spend on clothes. When asked where all this sudden wealth was coming from, Bill had said, "Don't you worry. It's a secret. Sometime I'll tell you about it."

"All these things are lovely, Bill," Anne had said, "and you know I appreciate them... but..."

PILES that Itch and Burn

If you now suffer from the itching, burning and smarting of piles you can be helped.

Just get a package of Hem-Rid, an internal pile treatment, at any drug store and use as directed. You will be pleased at how quickly your pile trouble is relieved. Only \$1.50 for the big 60 tablet package. If you are not completely pleased after using Hem-Rid 2 or 3 days, a test will be given you free. Refund agreement by all drug stores.

Fashions

Cut to fit!

4523

14 1/2"-24"

by Anne Adams

Half-sizes! Look so smart in this bright and breezy style. It's sew-simple — no side opening. Just unbutton shoulders — slip it on in 1-2-3 quick! Make several in a jiffy in tubular cottons. Cut to fit the short, fuller figure — no alteration problems with this pattern!

Pattern 4523, Half Sizes 4 1/2, 16 1/2, 18 1/2, 20 1/2, 22 1/2, 24 1/2. Size 16 1/2; takes 4 1/2 yards 35-inch.

This pattern easy to use, simple to sew, is designed for full, complete illustrated instructions.

Send thirty-five cents (35c) in coins (stamps cannot be accepted) for this pattern. Write plainly: Size, Name, Address and Style Number and send orders to:

Department P.P.L.,
Anne Adams Pattern Dept.,
50 Front Street W., Toronto.

shouldn't we be saving something?

"Listen, honey," Bill had answered. "You deserve a break, and at last you're getting one. I love giving you things, isn't that enough?"

Bill's lavish spending had continued for more than a year. Then, one day, Anne was mending the coat of one of Bill's suits, when an overdue notice from a local loan company had fallen from a pocket. When Bill came home, she showed him the notice. At first he flatly denied any knowledge of it. But Anne pointed out that his name was on it and kept asking questions in a frightened voice until Bill finally exploded. "All right, all right," he shouted, "it's mine! Where did you think the money was coming from, anyway?"

Anne stood transfixed, watching Bill get into his hat and coat. She said nothing, felt nothing.

"Just in case you're interested, Mrs. Smith," Bill said icily, "I'm in debt... more than five thousand dollars in debt! The door slammed as Bill went out, leaving Anne standing there."

This had been the closest Bill and Anne had ever come to a separation. Sometime after midnight Anne had heard the bedroom door open softly. Bill had knelt by the bed and held her hand, asking her forgiveness. "To think I could hurt anyone I love so much!" He had confessed everything.

They had planned the sacrifices they would make to repay the money over the years, until streaks in the sky heralded a new day. Bill had promised never to borrow again. "If we get in a jam," he had said, "I'll tell you. From now on we'll share our troubles as well as our pleasures... all of them."

It had been tough going. They had been dunned mercilessly. Many of their acquaintances had dropped them. Bill had lost his job but, when Anne expressed her faith in him, he took another one in the same town although the salary was lower. They had scrimped and saved. But Bill had kept his promise... he had never borrowed again.

Bill was remembering all this as he walked home from work the next evening. He was remembering how swell Anne had been through it all. "It's a wonder she didn't kick me out," he thought. "I must have been out of my mind."

Climbing the hill slowly, he became gloomier and gloomier. "Anne's birthday," he growled, "and not a thing. Always before I've had at least a buck in my pocket!" He could see the lights shining through the living room windows of the little house that had rented. "Those loan sharks! If I haven't had to pay out all that dough just at this particular time!"

Anne was waiting for Bill in the hallway when he opened the front door. Anne, looking sweet in a dress six years old. Anne, smiling. Anne, rushing into his arms. "Honey," Bill said, "Hap—"

"Don't say it! Don't you remember? We're skipping this one!"

Bill held her away from him a moment. "Gee, you look wonderful!" Then he drew her to him again, and kissed her.

Anne helped Bill out of his coat, took his hat. "Oh, I almost forgot," she said, going to the closet, "there's a letter."

Bill looked down and picked up a letter lying on the little table in the hall. He glanced at the return address. "Won't that ever stop dunning us?" he asked in a discouraged voice.

"Oh, let the letter go until after dinner," Anne said.

"Business before pleasure!" Bill ripped open the envelope and quickly drew out the large white sheet. "Dear Mr. Smith," he began to read sarcastically. "This is to inform you that, in accordance with our records..."

"Oh, let the letter go until after dinner," Anne said.

"Business before pleasure!" Bill ripped open the envelope and quickly drew out the large white sheet. "Dear Mr. Smith," he began to read sarcastically. "This is to inform you that, in accordance with our records..."

POLIO VACCINE: With cold storage space at a premium, this vaccine is placed in a meat locker in Tucson, Arizona.

100 Communities plan staging Jubilee pageant

REGINA. The Golden Jubilee pageant, "Saskatchewan — The Fifth Year," will be seen in at least 100 communities this year, to a combined audience that could total over 10,000.

More than 80 communities already have obtained the special kit of pageant material prepared by the Saskatchewan Golden Jubilee Committee. The kit contains instructions for stage lighting and stage settings, a historical narrative and parts for musical chor numbers with piano accompaniment. Although not included in the general package, music for band accompaniment is available on request.

In the narrative there is a place to include each community's own local history. This makes it possible to work in the pageant with the history of early days being written in most of the cities, towns and villages that are preparing Jubilee celebrations.

Here is the latest list of communities planning to stage the Jubilee pageant:

Nokomis, Rosetown, Wadena, Humboldt, Watson, Kerrobert, Mankota, Saskatoon, Assiniboia, Prince Albert, Grenfell, Moose Jaw, Beechy, Talmage, Regina, Unity, Wood Mountain, Churchbridge, Tisdale, Wurtville, Lloydminster, Penzance, Tarragon, Cabri, Wood Mountain, Elrose, Glaslyn, Meadow Lake, Shaunavon, Tisdale, Kinistino, Hains Lake, Shell Lake, Mistatim, Leader, Radville, Invermay, Sunnyside, Cut Knife, Hiram, Nipawin, Lumsden, Ituna, Dinsmore, Altaville, Rabbit Lake, Mossburn, Spay Hill, Whitewood, and Oreada.

RUDE AWAKENING

POWELL RIVER, B.C. Pat Burns was singing a power saw into a Douglas fir near here when he felt a movement at his feet.

He looked down into a hollow under a rock to meet the stare of a hibernating female bear, rudely awakened by the loggers.

When the bear moved out to attack, Sharp killed it with a blow on the head.

LONG, LONG TRAIL

PENTICTON, B.C. A watch which turned up on an Okanagan lake beach here last August has been returned to Cpl. Harry Nordahl at Arlington, Virginia.

Who lost it aboard a troopship if the Atlantic in 1946. How it got to British Columbia is a mystery, but the owner was traced through U.S. army records at Washington.

SMILE OF THE WEEK

An indignant Scotman sent a letter to the editor of a news paper. "If you don't stop writing about Scotchmen being so stingy," penned the Scot, "I'll stop borrowing your paper."

Health region sets dates and places for Sask. immunization against polio

Dr. M. K. Dehnell, medical health officer of the Regina rural health region, has announced dates and places where children born in 1949 and 1950 will be immunized against polio with the newly developed Salk vaccine.

The vaccine will be administered in three doses he said. There will be an interval of one month between the first two doses, followed by a booster dose later in the fall.

Any child who misses one of the doses will be excluded from further vaccination in this series. Dr. Dehnell said the vaccine will be given by public health nurses of the region.

Limited supply

"Only a limited supply was made available to Saskatchewan this year and therefore only children born in 1949 and 1950 will benefit from the service at present," he said. "The vaccine is offered to eligible children without charge. It will not be given to any children suffering from an acute illness at the time of the vaccination nor to a child who has a previous history of asthma or eczema."

He stressed that parents or legal guardians must bring eligible children to the vaccination clinics in person so that the necessary consent forms may be signed.

The place of clinics, areas served and dates follow. The dates in May are for the first dose and the dates in June for the second.

Balgownie and RM 158; at Balgownie school; May 4 and June 8. Penase and RM 160; at Penase town hall; May 2 and June 6.

Edenvald and RM 158; at Edenvald hall; May 6 and June 10.

Regina and RMs 158 and 159; in Regina provincial hall building; May 3 and June 7.

Earl Grey, RM 218 and the villages of Earl Grey, Gibbs, Southey

den doctor's office; May 3 and June 7.

Bethune, RM 190 and the villages of Bethune and Flandreau; at Bethune United church; May 2 and June 6.

Holdfast, RM 221, and the villages of Holdfast, Dilke, Chamberlain and Penzance; at Holdfast village hall; May 5 and June 9.

Wolsley, RM 155, Wolsley, the town of Wolsley, Summerberry and west; at Wolsley Legion hall; May 2 and June 6.

Grenfell, RM of Wolsley east of Summerberry; May 2nd, at Oakshella and west and town of Grenfell, at Grenfell armory; May 3 and June 7.

Broadview and RM of Elcapo west of Oakshella; Broadview memorial hall; May 6 and June 10.

1955 Forestry tour opens May 2 northern Sask.

The annual conservation tour of forested areas in Saskatchewan opens on Tuesday, May 2nd, at Midland in the Meadow Lake Forest district. Following this schedule, a large number of communities in the Prince Albert and Hudson Bay districts will be visited.

Conducted by the Canadian Forestry Association, in co-operation with the Saskatchewan department of Natural Resources, the tour has as its objective assuring the continued interest and assistance of the public in the protection of forest fires, and the conservation of our renewable resources of soil, forest, water and wildlife.

The deepest limestone mine in the world is situated in Ohio.

Former Coleman Girl Wed At Niagara Falls

On Saturday, April 30, St. Ann's Catholic Church, Niagara Falls, Ont., was the scene of a pretty early morning wedding when Gloria Marie, daughter of Mr. and Mrs. R. Zymar of Coleman, was united in marriage to Joseph Raymond, son of Mr. and Mrs. R. Faubert of Niagara Falls.

Rev. Monsigneur Farrande officiated.

The bride, given in marriage by her father, wore a strapless semi-formal net and lace gown with fitted bolero of matching lace. Her finger-tip veil of illusion net was caught to a jeweled coronet of orange blossoms. Her bouquet was a streamer of white chrysanthemums.

Miss Marion Faubert, sister of the groom, was a bridesmaid and was gowned in semi-formal of aqua blue net and lace with a matching headress. Her bouquet was a fan of baby chrysanthemums.

Jane Champagne, the little flower girl, wore a frock of powder blue nylon with bouffant skirt and she carried a basket of yellow baby mums.

Mr. Eddon Champagne was the groom's man.

Miss Janet Bedard of Niagara Falls, was the soloist during the ceremony.

Following the ceremony some 40 guests sat down to breakfast at the Rex Restaurant. Monsigneur Farrande proposed the toast to the bride to which the groom ably responded.

The guests then resumed the reception at the home of Mr. and Mrs. Rosaire Faubert, where the mothers of the couple received with the bridal party.

The bride's mother chose a frock of aqua blue with red accessories and a corsage of red roses. The groom's mother was attired in a navy blue suit with pink accessories and a pink rose corsage.

Out of town guests were from Plattsburg, N. Y., Woodburn, N.Y.; Cincinnati, Ohio; Toronto, Clinton, Peterborough and Metachewan, Ontario.

For her trip the bride wore a pastel blue suit with red accessories and a corsage of American Beauty roses. On their return the couple will live at Camp Borden, Ont., where the groom is stationed with the RCAF. The bride is also a member of the Women's Division of the Air Force.

Former Coleman Girl Wed in California

A very pretty wedding was solemnized in St. Raphael Church in San Rafael, California, when Sabina, daughter of Mr. and Mrs. Karol Mayerchuk was united in marriage to Richard Joseph, son of Mr. and Mrs. Richard Waters of Coytesville, N. J.

The bride, given in marriage by her father, chose a white lace gown with net insets, and finger-tip sleeves. Her illusion net veil was waist length. Her bouquet was white bouvardia centred with two white orchids.

Miss Ethel Mayerchuk, sister of the bride, was the only attendant and wore a gown of white lace featuring lace insets. She wore a white coronet and carried a bouquet of red roses.

Julius Mayerchuk, brother of the bride, was altar boy and also serving was Richard Keaton of New Jersey.

Mr. Joseph Palso of New Jersey, acted as best man.

Following the services a reception was held at the home of the bride's parents, where the mother of the bride received with the bridal party in a blue lace frock with white accessories. Her corsage was white orchids. The groom's mother wore a gown of navy blue accented with pink net and matching accessories. She also wore a white orchid corsage.

The bride's table was beautifully decorated with camellias and white streamers, centred with a three-tiered wedding cake in a circle of camellias.

The bridal couple left on a 3-week trip for which the bride wore a white knit suit with bronze accessories and a double white orchid corsage. The couple will take up residence in San Rafael on their return.

Out-of-town guests for the wedding were James and Ann Waters, brother and sister of the groom; Mr. and Mrs. Waters, parents of the groom, all from Coytesville, New Jersey.

Miss Mayerchuk is a native of Coleman, having received her education here. She went to the

United States with her parents in 1929. She was employed until her marriage by the Union Oil Co. in San Francisco, Calif. The groom is a member of the United States Air Force.

Legion News

The death of our dear comrade Henry "Buck" Isackers last week, leaves a deep sorrow upon our hearts. The passing of this comrade will not soon be forgotten. "Buck" as he was known to all of us has left us in person, but never in spirit. Our deepest sympathy goes out to his brother Hector and all the family.

A very special note of sympathy from all of us is extended to

Buck's life-long friend and companion, Buddy Clarke. "They shall not grow old, as we that are left grow old. Age shall not weary them, nor the years condemn. At the going down of the sun, in the morning, WE SHALL REMEMBER THEM."

Good-bye, Comrade.

Other notes of interest this week is that Wednesday, May 18 will be the last regular movie night for this season. We hope to bring these nights back again in the fall.

In regards to the district dart tournament to be held in Medicine Hat, as yet we do not know if any entry will represent us from Coleman. Owing to the unsettled conditions existing here at

the present time there is only a slight chance of being in position to send a team.

With regards to our provincial convention delegate F. Bedington, he has informed the president that he will not be able to attend this year's convention.

We regret this very much, but with circumstances beyond our control I guess he will have to wait another year.

Sick committee chairman Fred Hirst reports only two members on the sick call, and both responding wonderfully. By the way, Bob Perry is still at home on sick call, so how about some of you good fellows dropping around and pass a little time with him.

WHERE DOES THE DOLLAR GO?

Everyone likes to keep track
of the money he earns.

At Imperial Oil, accountants keep close tab on
every dollar the company receives. Auditors and
government tax people double check. Of every
dollar of Imperial's income last year...

About 52 cents
went to
purchase raw materials including crude oil (we
pay freight charges out of this too).

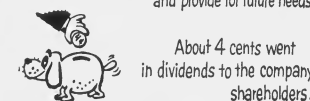

Roughly 30 cents went in operating
and administrative costs, including the wages of
Imperial's 13,000 employees.

10 cents went in taxes to
federal, provincial and municipal governments.
(This did not include provincial road taxes.)

About 4 cents
went back
into the business
to help replace worn-out equipment
and provide for future needs.

So You Think You Are Smart

Answers to last week's brain
teasers:

No. 1: How Did Mussolini acquire the title "Il Duce"?

Il Duce simply means "The Leader". Il Duce was originally bestowed upon Benito Mussolini by his followers, not as an official title, but merely as a nickname for the leader of the Fascist movement. Later the dictator adopted it as his title.

No. 2: What is a pen-jacket?

A pen-jacket is a double-breasted short overcoat worn chiefly by sailors, which dates back to 1723.

No. 3: Why are bananas picked green?

All bananas, even those eaten locally in the tropics, are picked green. They are not fit to eat if permitted to ripen on the plants. People naturally presume that bunches of bananas are picked from the plant green to preserve the fruit during shipment and storage. Bananas if allowed to turn yellow on the plant lose their characteristic good flavor, the skin breaks open, bacteria and insects enter the inside, the fruit rot rather than ripens and becomes unpalatable.

No. 4: How much is a "point" in market reports?

Point as employed in market reports means a recognized unit of variation in price and is used in quoting the prices of stocks as well as various commodities. In the U.S. stock market one point ordinarily means one dollar a share. The value of a point, however, varies according to the commodity in question. In the coffee and cotton markets for instance, a point is the hundredth part of a cent, in oil, grain, sugar, pork, etc., one cent.

When cotton goes up two hundred points, it goes up two cents; when grain goes up five points it goes up five cents.

Next Week's Brain Teasers:—

No. 1: In 1431, who was burned at the stake?

No. 2: What famous conqueror was born in Europe, died in Asia and was buried in Africa?

No. 3: How did show the whole leather outfit?

No. 4: What is the gay science?

Coleman Men Fined For Assault

Wojtek Siergiej of Coleman was found guilty of assaulting Carl Supnot of Coleman and causing him bodily harm by Magistrate F. S. Radford in Blainmore police court recently. Siergiej was fined \$50 and costs. At the same time Carl Supnot was found guilty of assaulting Wojtek Siergiej and was fined \$20 and costs.

It was alleged that both persons were at a wedding party in Coleman and that Supnot had struck Siergiej in the face during the early evening hours. The next morning when Supnot was going home from the party Siergiej met Supnot and beat him up, according to the evidence. Both men paid their fines.

Jack Byron of Coleman appeared before Magistrate F. S. Radford of Blainmore in police court this week and was found guilty of unlawfully assaulting an elderly Coleman resident with intent to steal.

For the offence Byron was sentenced to six months hard labor in the Lethbridge Provincial Jail. Chief of Police Edmund Corson of Coleman preferred the charges.

Letter To The Editor

Publisher,
The Coleman Journal

Dear Sir:

On behalf of the officers and members of the Coleman Red Cross I wish to convey our deep appreciation for the splendid way you helped us in our recent successful campaign by your publicity on local Red Cross work and the Canadian Red Cross Society as a whole. Truly we have found The Press very co-operative.

Thank you.

Sincerely,
LAURA M. JOHNSTON,
Secy.-Treasurer.

In just a few weeks you'll be getting your bathing suit out of mothballs for your first summer swim. Before you do, take two hours to learn artificial respiration during St. John Ambulance' "Save a Life" Week. You'll be glad you did if you ever have to pop in a water accident.

TV spokesmen in the United States said a commercial of 20 seconds to one minute, if available, would run about \$1,575 to \$4,500 for a New York City station during top evening hours. On a network basis with 53 basic stations, a one-minute commercial during class A would cost \$9,385.

Game Hunting

The problem the young newlywed faced required expert advice. His next door neighbor seemed to be the logical authority.

"My husband," she complained, "has come out to shoot dice and I'm worried. I don't know how to cook them."

Seeing Red

And then there is the one about the super-sophisticated matron who, when asked by the traffic officer why she ignored traffic lights nonchalantly replied, "Well, officer, once you've seen two or three of them, you've seen them all."

Miners are hard workers and sometimes hard drinkers. There was a certain superintendent in a western mining section who used to go on benders for a week at a time. During those periods he would stay at the town hotel.

The mine engineer and the hotel keeper decided to break this chap of his drinking habits. Once, on a binge, he finally retired to his room. The two plotters decorated it with flowers and put in dozens of packages wrapped as gifts. There were twin beds in the room, and the pranksters put, in the empty one, a girl known to us as Big Bertha. She was homely as could be and weighed over 250 pounds. Now she was dressed in night attire.

Then about 25 miners burst in, woke the superintendent up, broke out bottles and began to toast the "bride and groom."

The superintendent bolted out of bed. "A man," he said, "that cannot remember his doings after taking a drink had best leave the damn stuff in the bottle." Still wearing pajamas, he rushed out. "Leave it in the bottle," was just what he did after that as long as he worked at that mine.

Now going into use in industry: A new type of electronic computer, or "brain," which can remember 2,000 ten-digit numbers and locate any one in less than three-thousandths of a second.

Stop-and-go driving thought: According to the latest calculations, if it were possible to eliminate 10 stops a day, a motorist would save in 12 months enough money to equal his year's gasoline tax payments.

Advertising...

Modern advertising is a necessity to hold and build business. Be proud of your business, of the goods you have to sell, of the services you have to offer in your particular line. Show the progressive spirit and the desire to serve by advertising. Do not hide your light under a bushel — proclaim far and wide who you are and what you have to sell and where your place of business is, for public memory is short, and advertising is a powerful aid to all types of businesses. Moreover, people as a general rule shop where they are invited.

OF MANY THINGS

(By Ambrose Hills)

NEW TWIST

Driving along a Manitoba highway recently, I gave a lift to a young farm lad. After we had passed the time of day, I asked, "How is the farming business these days?"

"Oh," he said, "it's not too bad. But I'm having a lot of trouble with my Dad."

"How come?" I asked, though in my own mind I had already decided that the boy was no doubt being held back by an old-fashioned father. I had jumped to the wrong conclusion.

"It's like this," the boy said, "Dad keeps wanting to modernize. He says everything has to be big these days. Wants to trade in our old machinery on something better—and he says the old barn won't do another year."

"Well," I said, "that looks like a pretty progressive attitude to me. You have to keep up with the times, you know."

The boy nodded, regretfully. "I suppose so," he said. "But I love the old place just as it is—I don't like to see things change so much."

I had to chuckle a bit at that. It seemed to me like a fresh new twist. In my day, it always seemed that Dad was the fellow who wanted to go slow, and the young son was always pushing for the new and the different. Times are changing.

I'm not too sure that the change is for the best. I rather think the father, who is willing to risk, and go forward, has the right idea. Seems to me this present generation is a bit too timid. The boy's desire to keep things as they are was amusing, and I could sympathize with it, but it worries me a bit. Are we making life so easy and pleasant for our young men that they cannot visualize improving it? If we are, I am afraid this will not be quite such a good country for the forthcoming generation. By that time, even the old barn will not be a place of pleasant memories!

Coleman Tennis Club Elect Officers

A Tennis Club meeting was held in the Grand Union Hotel on Sunday, May 8th. Officers elected for 1955 were: R. Kwasney, President; C. Roughhead, Vice-President; G. Atkinson, Secretary.

Committees were elected to look after the grounds and take charge of tournaments and refreshments.

To start out the year, the Coleman club has been invited to Lethbridge on May 21 and 22, to play with teams from Great Falls, Red Deer and Calgary.

Dues for the season are as follows: Senior \$3.00, High School \$2.00 and Junior \$1.00. A practice board will be put up on the grounds for those people who are starting this year.

C.N.P. Golf Club Elects M. Aschacher As President

Blairmore — At the annual meeting of the Crown West Golf and Country Club, held recently, an election of officers took place.

To head the club for this term is president Martin Aschacher of Blairmore; vice-president is Peter Kroil of Blairmore; secretary-treasurer, Roy Upton of Bellevue, and Gordon Hutton, of Bellevue, care taker of the club house and greens. The latter is very well-known in southern Alberta for his proficiency at the game.

The club's annual tournament will be held on June 24, 25 and 26. The meet which is gaining in popularity each year is expected to draw approximately 150 entries—some from Kimberley, Fernie, Cranbrook and Wardner in British Columbia as well as Alberta entries from Pincher Creek.

Fort Macleod and the Lethbridge Golf and Country Club.

The course, one of the most scenic in Alberta, has had repairs during the past few weeks. Alterations were also made to the new club house which will be officially opened on June 11. A social evening is planned at that time for all members and invitations are being sent to various clubs in the vicinity to attend the opening.

Union business is big business. According to a recent survey, unions now collect about \$433,000-000 in dues each year, with the average union member paying in \$2.23 monthly.

Owners and Operators of Mobile Construction Equipment

Your attention is drawn to the fact that all mobile construction equipment is required to be licensed annually under the provisions of the MOBILE CONSTRUCTION EQUIPMENT LICENSING ACT before such equipment may engage in construction work in any municipality other than a City.

"Construction Work" means the operations required:

- (1) For excavating or for breaking and clearing or
- (2) For the construction or maintenance of a road, sidewalk, building, bridge, culvert, dam, drainage system, irrigation system, airport, pipe line, power line, grades, strip mining, or other work of like nature.

Under this Act a person is guilty of an offence,

- (a) Who performs or attempts to perform construction work by the use of a unit of mobile construction equipment for which a license has not been obtained or
- (b) Who performs or attempts to perform construction work by the use of a unit of mobile construction equipment upon which a license is not displayed, or
- (c) Who fails to notify the Department of Municipal Affairs of the detailed of any transfer of legal possession of licensed mobile construction equipment.

A copy of the Mobile Construction Equipment Licensing Act may be obtained upon payment of twenty-five cents from the office of the Queen's Printer, 10302 - 107th Street, Edmonton, Alberta.

Mobile Construction Equipment Licenses are issued by the Department of Municipal Affairs, Natural Resources Building, Edmonton, Alberta.

GARDEN NOTES

Big variety to choose from for solid beds of flowers

For big solid beds of flowers there is quite a variety from which to choose. Some of these new type zinnias make a wonderful show and they come in an enormous range of color and sizes. We can use small types along the front or in smaller beds and anything up to three feet for larger beds and farther back. One is advised to get packets of special varieties.

It is best of course to cut or dig in while they are still green and before too many seeds have matured. Often when the first crop of early vegetables have been taken off, the ground is sown to one of these special cover crops which choke out bad weeds and form valuable green manure.

Too much emphasis cannot be laid on taking gardenings slowly. Nothing is gained and often considerable is lost by rushing in too much, too soon. In the old days everyone would get the whole garden, both flower and vegetable, planted on the first fine day and then, providing it escaped the last frost, there would be a big display of bloom and a feast of vegetables for a week or so in the summer. And that would be about all.

The aster is another plant that lends itself to clump planting and here too the range in color and size is wide in the new varieties. And of course, there is the petunia, a natural for solid beds and borders. These and others ranging all the way from the inch high alyssum to tall clematis and cosmos are all suitable, either to

plant in solid beds or to arrange together in big clumps.

Finer the better

There is nothing the average seed likes better than a bed of finely worked soil. Of course, moisture and fertility will be necessary, too, but it is almost impossible to over-emphasize the importance of having the soil fine. Especially is this so when seed to be sown is tiny like that of lettuce, carrots, alyssum or potatula.

If the seed bed is coarse, and lumpy, it will be impossible to keep out air and either the seeds will not germinate at all or they are liable to produce only weak plants. It will pay well to run rake or cultivator through a few extra times.

In fairly large gardens here is a useful trick for holding up the soil. A bit of the hand should be set aside and sown to clover, oats, buckwheat or almost anything that will grow quickly. In a pinch, we sow nothing at all but simply let the weeds germinate and grow a foot or so high, then these are cut with a scythe or power mower and allowed to form a mulch and rot.

Better still, we can have them placed under or dug in where they will make a compost of their own and help loosen the soil. In addition to adding humus, they will also be of considerable value as fertilizer.

Change with temperature

An interesting development in the metallurgy of metals is the creation of alloys whose magnetic properties change with variations in temperature. These alloys, which contain copper and a high percentage of nickel, are weakly magnetic at ordinary temperatures, but gradually lose their magnetism as the temperature is raised. They are used to compensate for the effects of temperature in such instruments as the automobile speedometer and the watt-hour meter, thus contributing to the accuracy of these devices. Were it not for these alloys a speedometer on an automobile travelling 60 miles per hour, reading correctly on a winter day, would only read about 42 miles per hour on the hot desert.

HELP PREVENT DROWNINGS

EQUIP—FARM DUGOUTS AND SWIMMING HOLES WITH THIS PRACTICAL SAFETY DEVICES

SWIMMING HOLES AND DUGOUTS—CANADIAN RED CROSS SOCIETY

—Farm dugouts, dams, swimming pools should all be equipped with this life saving device. These places are dangerous and claim many lives each year.

Just warning children won't keep them away from water. Even the dugout before a life is lost.

Those who insist on entering the water in a dugout should do so on the end of a 1 1/2-inch line and the line held by someone on shore.

Directions for throwing

The 60 foot 1 1/2 inch rope is attached to the handle of the can. The block of wood on the free end of the rope prevents its fraying. Coil the rope clockwise in a 15-inch coil.

Hold the can in throwing hand—coil is held loosely in the other hand. Step on the rope ahead of the block. Heave can with an under-hand swing—allow rope to follow. Throw can well past victim and draw it to him. Brace your self. Pull steadily—don't jerk. The air tight can will support the victim's weight.

The buoy should be hung neatly, ready for instant use. TWO are better than ONE. Practice using it. Two airtight cans with the handles tied to each end of a two foot length of rope also make a practical buoy.

Another safety item is a long light pole which can be used for reaching or guiding a plank to a victim.

GET TWO LYNX

LETHBRIDGE, Alta.—Hunters in this southern Alberta district have shot two lynx this winter. One was bagged near this city and the other near Magrath, 20 miles to the south. The animals each weighed between 25 and 30 pounds.

SEEK TOURISTS

VICTORIA—British Columbia and Alberta are establishing a joint tourist trade office in San Francisco to attract more visitors to the two provinces. Arthur B. Peers, assistant commissioner in the B.C. Travel Bureau, will represent the provinces in the new bureau.

The loon, a diving bird, is found only around fresh water.

:: APPETIZING RECIPES ::

PLUME CAKE

- 1 cup shortening
- 1 cup granulated sugar
- 1 egg
- 1 1/2 cups sifted cake flour
- 1 teaspoon salt
- 1/2 cup milk
- 1 1/2 cups brown sugar
- 2 teaspoons flour
- 1 tablespoon water
- 2 tablespoons melted butter
- 1/2 cup chopped pecan meats

Cream shortening; add granulated sugar gradually, creaming until fluffy. Beat in egg thoroughly.

Sift together 1 1/2 cups flour, the salt and baking powder; add to

shortening mixture alternately with milk, beating until smooth after each addition. Stir in vanilla. Pour into well greased glass cake dish.

Bake in moderate oven, 325 degrees F., for about 40 minutes or until done. Cool slightly.

Mix together brown sugar, two teaspoons flour, the water, melted butter and chopped nut meats; carefully spread on top of slightly cooled cake.

Return to oven, to oven, 325 deg. F., and bake for 10 minutes.

This delicious cake is a time saver, for when it is removed from the oven with its nut topping, can go right to the table. Yields 8 to 10 servings

Farmers in rust area being urged seed largest possible acreage Selkirk

REGINA—R. E. McKenzie, director of the provincial plant industry branch of the department of Agriculture said recently that farmers in the rust area of Saskatchewan should make every effort to seed the largest possible acreage of Selkirk wheat this spring as insurance against rust damage. The director said that at this early date it was impossible to predict whether rust would be a problem in 1955, but that initial reports from the southern United States indicate a larger than normal overwintering of rust spores.

"Should these spores move northward," he said, "and if favorable weather for rust development occurs during late May, June and July, losses could again be severe in Saskatchewan."

Best protection

"The best protection against rust is the seeding of resistant varieties of wheat, particularly Selkirk," said Mr. McKenzie.

"Surplus supplies of Selkirk are available in Manitoba and the Saskatchewan Seed Grain Co-operative at Moose Jaw, the marketing agency for seed growers, has made arrangements to bring in substantial quantities of good quality seed for early delivery to farmers."

According to the announcement, orders for Selkirk may be placed with elevator agents for carload or less than carload quantities, and carload lots will be delivered to local shipping points while smaller quantities may be picked up at Moose Jaw or shipped from Regina.

The Saskatchewan department of Agriculture is assisting this movement of carload quantities by paying half the freight charges from Manitoba. This freight assistance and any additional surplus

Third invitation visit Sask. Jubilee Year

REGINA. The third invitation to visit Saskatchewan in Jubilee Year is now being mailed to some 20,000 former residents of the province. Accompanying each letter is a calendar of Jubilee celebrations being staged in over 200 communities, most of them in June, July and August.

The invitation is a personal one from Mr. Justice Gault, chairman of the Saskatchewan Golden Jubilee Committee, outlining the Jubilee program and welcoming visitors.

According to Fred McGinness, Jubilee co-ordinator, the personal invitation is designed to attract the attention of each person receiving it and is expected to bring thousands back to their old homes in their vacation period.

Cities, towns and villages are making special "home-coming" plans, including decorations and a reception centre. In addition to the general invitation from the Jubilee Committee, local communities are sending out their own letters of welcome, asking those who receive them to tell others of Saskatchewan's Jubilee.

Rains dampen hope for early seeding in Manitoba

Rains of one-half to one-inch that fell in many parts of Manitoba during the past week checked the hope that spring operations would get off to a very early start this year, states H. E. Wood, Manitoba department of Agriculture.

Before the rains a start had been made on seeding in a number of widely scattered points where the soil is well drained. Mr. Wood reported Waskada, Deloraine, Killarney, Somerset and Morden were among the areas reporting early seeding.

"Now seeding is not likely to be general before the beginning of May," Mr. Wood stated, "as excess surface moisture is a problem on all the heavier low lying soils and particularly in the Red River Valley."

The planting pattern is expected to follow the same general pattern as in previous years with probably some increase in wheat acreage. This would bring the total wheat acreage in the province to nearly 2 1/2 million acres.

It is expected that the acreage of sunflowers, corn, field peas and canning crops will be increased. The outlook for early pastures and for an ample hay crop are very promising, Mr. Wood said.

—By Chuck Thurston

Embargo helps

Mr. McKenzie recalled that the Dominion Gov't. had imposed an export embargo on Selkirk wheat seed principally to give Saskatchewan farmers an opportunity to get supplies without paying the extremely high prices that would have prevailed if exports had been allowed.

"Every effort should be made to get all of this seed into the ground in the rust area," said Mr. McKenzie. "This is particularly urgent on the heavier lands of the Regina plains where it is now evident that seeding will not commence very early and could be considerably delayed by any period of wet weather. However, to be sure of obtaining seed it is important that orders be placed immediately."

Officials of the Agricultural department have said that the area south of a line between Yorkton and Colonsay and east of the 3rd Meridian is the most likely area for a rust epidemic during 1955 if the weather is favorable for the growth of the spores.

The movement of carload quantities to points needing Selkirk is the best way of obtaining supplies said Mr. McKenzie, adding that municipal agricultural committees, Ag. Reps., and elevator agents will be glad to help organize where it seems possible that a carload could be imported.

Mr. J. K. Richardson of the St. Catharines Plant Pathology Laboratory, federal department of Agriculture, recommends the disposal of all potatoes including table stock if the disease is found on the farm. All storages, containers, and farm equipment used in handling the potato crop, should be purchased and used for planting.

The disease in the field can be recognized by a progressive wilting, yellowing, rolling and eventual dying of the leaves on one or more stems from the base of the plant. Stems from such plants may be completely rotted or show typical cracking of the skin. Others when cut may have cream colored decayed areas of cheesy consistency in a narrow ring just below the skin. Tubers only slightly infected often show no external symptoms and are overwintered as apparently normal healthy potatoes. These apparently harmless tubers give rise to infected plants.

Under certain conditions other wilt producing and tuber rotting organisms can cause symptoms which resemble ring rot very closely, making positive diagnosis extremely difficult and sometimes impossible, unless the material is subjected to a microscopic laboratory examination.

"Canada's Poultry Products"—An exhibit of Canadian poultry products at the American Poultry Industry's Fall Fencing Conference in Kansas City attracted much attention. The exhibit was prepared by the Department of Trade and Commerce and the Poultry Division, Marketing Service, and offices of the Poultry Division described it as an outstanding success. The egg display was largely since the United States egg market had strengthened to the point where United States egg buyers were interested in buying Canadian eggs. Members of the Canadian produce trade attending the conference were able to do a flourishing business.

In the display of liquid-frozen, tray-packed poultry, the Canadian pack showed the improvement in workmanship by Canadian eviscerators in the past year and with the introduction of liquid freezing made the Canadian pack the most attractive in the exhibit and in the type of pack that drew the most attention from visitors.

Importance clean Tokyo Maple water stressed Leaf club closes doors

An actual story is used by P. V. Carlson, Director-General of the Food and Agriculture Organization to illustrate why the FAO welcomes the choice of "Clean Water Means Better Health" as the theme of World Health Day, 1955.

One day, his statement says, the head of FAO's mission advising the Government of Pakistan on a great project to control and use the waters of the Ganges for agriculture, bought some fish from a fisherman on the river's delta—a man who lives on and from the water.

"For payment," said the fisherman, "just give us some fresh water to drink. That, and a little rice, are what we need."

Everyone understands that the farmer needs water as well as fertile soil for his crops, his animals, and the trees that produce our lumber and paper. But without thinking a bit, not so many understand the importance to the rural family of a good spring or well of safe, fresh water.

If the daily drinking water has to be brought long distances, much productive time and labor are diverted. If the family is ill of a water-borne disease, the land goes unproductive, and both the family and the world go poorer.

TOKYO. After three years of operation and after entertaining over 80,000 United Nations soldier guests, the Canadian Army's Maple Leaf Club in downtown Tokyo has officially closed its doors. At a closing buffet luncheon, Canadian Ambassador to Japan, the Honorable T. C. Davis, commented the conception of the club and spoke highly of its effect on morale of United Nations soldiers on leave in the Japanese metropolis.

The recreational club has played host to soldiers of all nations including 4,000 Americans. At its peak of operation, 23 Japanese were employed in the club supervised by army personnel. Canadian Red Cross Workers provided a feminine touch.

In addition to Ambassador Davis and his staff, guests included Brig. Cameron B. Ware, head of the Canadian Military Mission, Far East, and senior Commonwealth and American officers of the Tokyo area.

No known infectious disease develops faster than Asiatic cholera. After the first symptoms are felt, persons have died from within 60 minutes.

3140

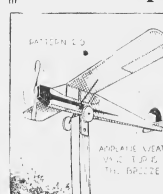

Mace & Orange Sweet Bread

Mix and sift 3 times, 2 1/2 c. once-sifted pastry flour (or 2 1/2 c. once-sifted all-purpose flour), 3 1/2 tsp. Magic Baking Powder, 1/2 tsp. salt, 1/4 tsp. ground mace. Cream 1/2 c. butter or margarine and blend in 1/2 c. fine granulated sugar, beat in 1 well-beaten egg, 1 tsp. grated orange rind and 1/2 tsp. vanilla. Add dry ingredients to creamed mixture alternately with 3/4 c. milk. Turn batter into a loaf pan (4 1/2" x 8 1/2") which has been greased and lined with greased paper. Bake in moderate oven, 350°, about 1 hour. Allow loaf to cool in pan. Spread sliced cold bread with butter or margarine for serving.

Always Dependable

Home Workshop

This graceful plane measures two feet between wing tips. It is finished in white enamel with red and black trim. The propeller picks up in the slightest breeze. It may be mounted on as the whole plane turns into the separate standard, the garage rack, or in any exposed area. The pattern gives actual size cutting guides for individual parts with directions for assembly and mounting. The price of pattern 210 is 35c. Copy will be mailed the address in return. For first class mail delivery, enclose 2c extra, or 5c for air mail.

If you have kitchen floor space vacant that is two feet square it is doubtful if you can find a more useful way to use it than for this cabinet. The recommended height is 36 inches but this may vary in order for the cabinet to be level with stove, sink, table or whatever is on either side. Note the tray slot and the double-deck drawer with sliding tray for silver. Use the lower part for table mats and napkins. This piece was designed for the new cabinet maker with only hand saw, hammer and screwdriver. This pattern 323 may be ordered for 35c or it will be included in the packet of five standard size patterns for kitchen remodeling for only \$1.50 postpaid.

Address order to: Department P.P.L., Home Workshop Pattern Service, 4433 West Fifth Avenue, Vancouver, B.C.

PEGGY

The Sports Clinic

(An official department of Sports College)
Conducted by Lloyd "Ace" Percival

Healthy nerves are aid to success in sport

To be able to do his best the athlete must have a normal, healthy nervous system so that his nerves will not over-react under pressure, such as during an important game. Then he will be able to reach his peak performance.

The athlete's reactions under pressure are made up of the following things: things heard, things read and the reactions in the same situation of the athlete's immediate circle of family and friends. Thus, if he lives in an atmosphere of criticism, quick tempers and much hurry, bustle and fuss over unimportant details you will very likely see these same things in the athlete.

One great cause of tension is a critical attitude. So, make sure you are not the critical type, always pulling people and things apart. Concentrate on liking people

and you will find they will return your feelings. Thus many of the differences and troubles which in turn cause tension will disappear—or at least lessen to a great degree.

To relax and slow down does not mean to lose any of your alertness and enthusiasm. It merely develops a more relaxed attitude. Do what you can as hard as you can and let it go at that. Don't waste valuable nervous energy fusing and fretting. This applies to everything you do in life.

Remember, to build and keep a sound, healthy nervous system you must learn how to live in a healthy way and you cannot live in a healthy way unless you have a good attitude toward life.

The nerves must be nourished just as any other part of the body and to do this it is necessary to make sure that you get plenty of calcium and the B Complex foods—excellent sources of these elements necessary for healthy nerves. One of the easiest and most pleasant ways to get calcium is to make sure you eat plenty of the dairy foods and drink plenty of milk. Cheese and milk are musts for the athlete. Some B Complex foods consist of liver, whole grain breads and cereals and brewers yeast. These are excellent sources of B Complex.

WEEKLY BIBLE COMMENT

GOSPEL TEACHES STRENGTH OF LIFE IN CHRIST

In many places in the New Testament there are verses or passages that stand out superbly. They offer the concentrated expression of a great fact, a great experience, an exhortation to righteousness and Christian living, or an inspirational incentive of encouragement and uplifting power.

One, in particular, expresses all the reality and power of the Gospel experience, the fact of what belief in Christ and the acceptance of His message of salvation can do for man. It is found in II Corinthians: "Therefore if any man be in Christ, he is a new creature; old things are passed away; behold all things are become new."

What does it mean to be "in Christ"? Scholars say it is as if it referred to the place in which one lives. Christ is the environment of the new man in precisely that sense. "If you love Me," said Jesus, "keep My commandments." To live in Christ is to seek the guidance of His spirit and to follow His example.

This passage, too, contains the clear, effective expression of the nature and meaning of salvation. Too often, salvation is made a matter of safety and redemption in some experience beyond this life, without much reference to moral and spiritual reality.

But here the implication and meaning are plain. Salvation is a matter of new man in Christ. It is a moral and spiritual experience of regeneration. God's will and God's provision in Christ and the Gospel is that here and now, for each of us, there may be a new life and a new creature.

E. V. Durling

How much older than the bride should the bridegroom be? According to experts on the subject the age of the bride should be the age of the bridegroom divided by two, and seven added. For example, if the bridegroom is 36, the bride should be 23. If the bridegroom is 32 the bride should be 23.

For practical purposes

For the purposes of warmth the fancy vest should be revived. A sweater has a tendency to make a man appear elderly and in need of extra protection from the weather. On the other hand a brightly colored vest gives a man a youthful appearance. Makes him look like a lively fellow. Also improves his standing as a well-dressed man.

Throwing the garter

At a French wedding the bride doesn't toss out a bouquet. She throws a garter. The superstition is that the bridegroom who catches the garter will be married within a year. An interesting idea. A Canadian couple wishing a wedding ceremony somewhat unusual could have the bride dressed in blue. The marriage prophecy says, "dressed in blue your lover will be true." The bride-staircase could be dressed in red. Then, as the gown would cover the "something blue" requirement for the bride's attire, she could wear a red garter which she could toss for the bachelorettes present to try to catch.

Canine has no choice

In some recent divorce cases the question has come up as to whether husband or wife shall be awarded the family dog. In one case, the dog was a springer spaniel. The judge awarded the dog to the husband. In explanation, his honor said, "A springer spaniel is a man's dog. If it had been a dachshund or a pekingese I would have awarded it to the wife."

Flirting females

Unescorted women go to public dances in Havana wearing masks. Their desire for anonymity is respected. The masks are never lifted by a man, no matter how curious he may be. Gay married women are said to take great advantage of this situation.

No allowances for interruptions

Is your wife a speed girl as a home manager? How well is she informed on housekeeping efficiency? Regarding how long it should take a woman to do her housework a domestic efficiency expert says it should be figured on basis of half an hour for each room plus one hour for each small child. As for example, if a woman has a six-room house and two small children her housework should be done in five hours.

The earlier the better

When Bob Feller was seven, his father started him practicing. When Bobby Jones was seven, his father gave him a set of golf clubs for Christmas. If you want your son to be a champion or star in baseball, football or golf you better get him interested in the chosen sport very early in life.

Rats costly boarders, help in the spread of disease

By Allan Rugg, Wilkie Area Ag. Rep.

For some time now the brown rat has been a costly boarder in our communities. It is estimated one rat will consume about two dollars worth of food in a year. But as he steals this two dollars worth of food he is costing you another eighteen dollars through waste and contamination of food, damage to property, and in many cases, spreading disease.

To illustrate how stealthy these harborage rodents are it is estimated that if you have never seen a rat but have suspicion of their presence you could have as many as twenty on the premises. However, if you have seen one only occasionally you have got twenty to possibly two hundred helping themselves to your income. Twenty rats at twenty dollars each is a pretty heavy overhead in farming operations.

Two things essential to the rat if he is going to survive and multiply, are food and shelter. If these are removed then it is quite possible he won't be too interested in staying.

Among things to do are neat piling of firewood and old lumber, off the ground if possible, so that the cats and dogs can get in. Burn or remove refuse heaps, old straw sheds and piles. Raise yards—arries off the ground, permanent ones eighteen inches if possible. Wooden floors in chicken houses, hog pens or barns provide excellent protection for rats and besides, they are generally handy to feed. Double walls are also good.

The poisons which cause uterine hemorrhaging have become quite popular. They eliminate shyness but must be fed constantly over at least a ten day period. Where there are cereal grains handy for rat food the water soluble poisons are quite effective. The departments of Public Health and Agricultural Service are quite willing to supply literature, films or assistance to publicize rat control. Rats will soon be on the move again with the coming of spring. Get as many as you can before they become more active.

Ticklers

—By George

"Where's the file department?"

Ten Word INTELLIGRAM

Check the correct word:

1. Sir Winston Churchill is vacationing in (Sicily) (South America).
2. (Ben Hogan) (Cary Middlecoff) won this year's Masters golf tournament.
3. There are (16) (18) major league baseball clubs.
4. Evangelist Billy Graham has been appearing in (Scotland) (Ireland).
5. Party purge is causing apprehension among Red (Russian) (Chinese) leaders.
6. First day of summer occurs on the summer (solstice) (equinox).
7. This year, summer begins on June (21) (1).
8. New Jersey is known as the (Garden) (Empire) state.
9. Admiral Byrd (will) (will not) lead the new U. S. expedition to the Antarctic.
10. (First and second) (sixth and seventh) grade children will receive first mass inoculations of the Salk polio vaccine.

Count 10 for each correct choice. A score of 0-20 is poor, 30-60, average; 70-80, superior, and 90-100, very superior.

Mr. and Mrs. A. Anderson and son of Fernie, B.C., visited this week at the home of Mr. and Mrs. J. Morrison the parents of Mrs. Anderson.

The grip power of your hand, if you're an average man, is between 60 and 130 pounds, and, for a woman, between 30 and 70 pounds. Measurements made with a new testing device disclose, too, that maximum grip seems to be inherited and is not improved by exercise, and that most people have 10 per cent stronger grip in the dominant hand than in the less-used one.
